

Prof. Jean Sequeira

Prof. Jean Sequeira (M'87) was born in Marseilles (France) in 1953. He graduated from « Ecole Polytechnique » in 1977 and from « Ecole Nationale Supérieure des Télécommunications » in 1979. Then, he taught Computer Science from 1979 to 1981 in an engineering school of Ivory Coast (at the Yamoussoukro « Ecole Nationale Supérieure des Travaux Public »). From 1981 to 1991, he was managing projects on 3D medical imaging at the IBM Paris Scientific Center. During this period, he obtained a « Docteur Ingénieur » degree (PhD) in 1982 and a « Doctorat d'Etat » degree (a diploma that allows the scientific direction of PhD students) in 1987. He has been a « Full Professor » at the University of Marseilles since 1991 (he is a « First Class Professor » since 2001). In 1994, he created a research group on “Image Analysis and Computer Graphics”. He still is the manager of this group that became the LXAO group of the LSIS (Laboratoire des Sciences de l'Information et des Systèmes) and that is made of about 40 researchers. He published more than 90 papers, 27 of them in Journals and 40 in International Conferences, he organized International Conferences, he is in the Scientific Committee of many Journals and International Conferences and he was the Scientific Director of 16 PhD research works.
